PUB MC GEOGRAPHIC REPORT

Use: This report lists all the mining claims (active, closed, or both) in a specific geographic location.

Description: This report can be retrieved for any administrative state. You can specify case disposition, meridian-township-range or meridian-township-range-section, and quadrant. The report is sorted by meridian, township, range, and section, and includes serial number, quadrant, claim name, claimant, lead file, case type, status (i.e. case disposition), location date, and last assessment year. The banner page lists the input parameters you selected: admin state, geo state, case disposition, MTR, MTRS, section, quadrant, total rows returned, and the standard disclaimer.

NOTE: Data stored in our database is in **CAPITAL LETTERS**. You must use **CAPITAL LETTERS** in the Selection Criteria or you will not receive any data on your report.

Procedure:

- 1. Select **Pub MC Geographic Report** from list on left side of LR2000 reports screen.
- 2. Click "Reset Selection Criteria". Then click "Admin State".
- 3. Select the desired administrative state (or states) by typing the two-letter state code in the edit field, or by highlighting it from the list. Click "**OK**".
- 4. Next click "Case Disposition". If you are looking for current claims select "Active".
- 5. Select the desired case disposition(s) for your report by highlighting it from the list, and click "OK".
- 6. Click one of the desired geographic types in Step 3. If you choose "Multiple Mer Twp Rng Sec".
- 7. Type the desired legal description in the edit field, then click "**OK**". Be sure to follow the standard legal description format (see section Introduction to the Reporting Database for format).
 - If you want multiple legal descriptions for your report, first remove any previous information from the values field. Click "Select All" then click "Remove". Type the first legal description and click the green checkmark next to the edit field. The legal description you typed will move down to the values field. Repeat for all remaining legal descriptions. Click "Select All", then click "OK".
- 8. If you want the report sorted by a specific quadrant within a section, click "MTRS Select Quandrant". You must choose the "Mer Twp Rng Sec" first.
- 9. Once the desired selection has been typed in, click OK and then select the quadrant you desire.
- 10. Select the desired quadrant(s) by typing the two-letter codes in the edit field, or by highlighting it from the list. Click "**OK**".
- 11. Click "Process Report". See example of banner page and report, attached.

IMPORTANT NOTES:

The following are notes for each Geographic Type button: (Remember to type CAPITAL LETTERS)

MER TWP RNG -One(1) or More Whole Townships - You will be able to type many townships in the limit box and the report will be on the whole township(s). Example: 06 0120N 0890W, 06 0120N 1000W

MER/TWP/RNG/ Multiple Sections - One Townhip ONLY w/Multiple Sections - When you click on this button a limit box will come up for you to type in your township (M T & R). Once you click the "OK" a second limit box will come up and you will need to type in the section numbers you desire. Remember this is only for one township where you want multiple sections to be reported. Example: first box 06 0120N 0890W, second box 001, 012, 013, 024, 025

Multiple Mer/Twp/Rng/Sec - Township w/Section - May Type Multiple MTRS - You may request many Meridian, Township Range and Sections but you must type the whole description in every time. Example: 06 0120N 0890W 001, 06 0120N 1000W 022

One MTRS + Select Quadrants - One MTRS with Multiple Quadrants. This button is the only one where you can isolate a certain quadrant. It works similar to the Section above. Once you have typed in the MTRS a new limit box will come up and you can then select the quadrant you want. Example in the MTRS box type 06 0120N 0890W 007 then click "OK", in the second box select NE and click "OK".

When running the Geographic Report please make sure you are doing the following:

- Make sure you press "Reset Selection Criteria" each time you run the report. If you don't you may end up with previous selection criteria in with your selections and not get the expected results.
- If you press one of the four geographic buttons by mistake, please start over by pressing your Reset Selection Criteria button again. If you choose not to srart over, please select the "Ignore" button on the incorrect limit box. If you select the "Cancel" or the "OK" buttons to get out of an incorrect limit box the limit will default to "All" and you will get the report for your whole state.
- After typing your information in one of the 4 geographic buttons, make sure you "Select All" and that each of your entries is highlighted. If you do not have any selections highlighted, the report will default to "All" and you will get the report for your whole state.
